Testimonials

# **Northland Muesli plus molasses & Mega Max Calf Starter**

**Why do you use this combination for your calves?**

“ It’s local, the store provides good service and it’s well priced. Calves start on the Starter and grow very well before transitioning to the Northland Muesli and molasses with no problems or disruptions to growing.

✓ **Results**

Our calves eat up to 2 kg per day. For each 2 kg meal/grass, we see a 1 kg weight gain for each calf. Once weaned off the meal at 104kg+, the calves just keep growing and are averaging a 0.8 kg LWG/day.

“  
**We feed 115kg/  
calf across both  
meals.** ”
